Team Zoo Guide Meeting Minutes
3/12/2021

Attendees: Rebecca Grantland, Sarah Wathke, Suzanne Moore, Hritik P, Zach, and Christopher Cotton.

Items Discussed and Decisions Made:

- Slides for the presentation are completed and checked for accuracy.
- Discussed on how everyone was able to get SQL download and had the database uploaded into the SQL.
    - This is how we will test the code.
- Map for animals is completed and animal information.
- On the map the user will be able to select from a region and the animal facts will show.
- What is not yet completed is the zoom into the map and search bar for the animals.
- Unit test was completed and tested for accuracy.
    - The unit test was writing in phyton in PyCharm.
    - Pip was needed to be installed.
    - The unit test called the database and checked to see if any common name for the animal was NULL.
- Documentation, search bar, and selected region is still needed for the project.
- Six of the group members will be divided into groups of 2 to complete each task.
    - Rebecca and Zach on documentation.
    - Programming the search bar will be Suzanne and Hritik.
    - Sarah and Christopher on zoom on the select map.
- Issues?
    - Format for the mobile phone is not terrific and needs to be fixed.
    - Fixing the picture layout on the mobile phone would need to fixed to resolve the issue.
- Get ready for the presentation around 6:00 in Microsoft teams.
    - Completed presentation for the ZooGuide webpage.
    - Each member read their slide and discussed information with instructor.
- Notes from the design review:
    - More information about the database should be presented.
    - Discussed how covid has affected some resources of sharing tools and how different it is to complete a project vital than in person.
    - Discussed how some areas of the project will not be completed.
    - We will have a few more weeks with the project and will meet up again for sharing the project.

Action Items:

- Fix the format on the mobile view including the picture.
- Documentation for project.
  - Rebecca and Zach
- Programming the search bar.
  - Suzanne and Hritik.
- Zoom on selection of the map and the pictures on map.
  - Christopher and Sarah.
